

Welcome to the  
**VACCINATION CENTRE PHOENIX WEST!**  
This information should help you get vaccinated  
quickly and safely

**Wear a mask**  
**Keep your distance**

Please wear a mask at all times and  
– when possible – keep your distance.

**Get your temperature taken**  
**Sanitise your hands**

Please get your temperature taken and  
sanitise your hands.

**Have your ID ready**

Please have your ID or passport plus residence  
document / registration certificate ready so that  
we can check if you are eligible to be vaccinated  
today. If you are entitled to the vaccination due  
to your profession (health and care workers),  
please have the certificate of your employer ready.

**Please fill out documents here!**

Next, you will receive documents that you need to fill out. Please have your health insurance card ready for this. If you would like the documents in a language other than German or need help filling them out, please let us know – we will be happy to help you.

**Uncover your upper arm!**

Once you have filled out the documents, the doctor will talk with you and be happy to answer any questions you may have. Once everything has been clarified, you will be vaccinated. For this, you will need to uncover your upper arm. If you have a certificate of vaccination with you, the vaccination will also be entered here in your vaccination certificate. If not, you will receive a replacement certificate. **Please be sure to bring this certificate and/or your vaccination certificate with you to your second appointment.**

After you have received the vaccination, please sit in the lounge area for another 15 to 30 minutes. If you begin feeling unwell, please let us know immediately. Medical staff will take care of you.

**Do not leave the vaccination centre before checking out!**

Before leaving, please notify the check-out desk. Please note that you will need a second vaccination about three to four weeks after the first, and that you will not achieve full protection until two to three weeks after this second vaccination.

If you become unwell at home, please call your family doctor or the emergency medical service at **116117**. In case of emergency, please call **112**.

*We wish you all the best and will see you again at the second vaccination appointment.  
Yours, the vaccination team from the Phoenix-West Vaccination Centre*
