Important Information

The new CoronaImpfVO [Corona vaccination directive] that is now valid, cancels the need to prioritise individual groups of persons as from 26/06/2021.

This new regulation can only take place, if there is enough vaccine available.

- You can only make appointments for first vaccinations by telephone or online.
- Appointments to be vaccinated with BioNTech and Moderna vaccines can be made through the KVWL portal for vaccination appointments:
  - 16 – 25 year old persons and those older than 35 years receive an appointment for the BioNTech vaccine automatically.
  - 26 – 35 year old persons receive an appointment for the Moderna vaccine automatically.
- It is not possible to make an appointment in the vaccination centre directly.
- You can still make appointments for a first vaccination at general practitioners and company doctors.
