It is now possible to get vaccinated in the vaccination centre spontaneously, **without appointment**, because there is more vaccine available now and a vaccination can be done much faster. The Vaccination Centre Phönix-West offers daily vaccinations (Monday to Sunday between 2 p.m. and 7 p.m.) for those who want to be vaccinated there and then. This offer applies to
- persons aged 16 and above
- fully recovered persons (please observe the period between the first and second vaccination)
- persons who require a follow-up vaccination (please observe the period between the first and second vaccination).

**What to do with already made appointments**

Because of the changed opening hours, all **appointments made for the morning** are automatically transferred to the time between 2 p.m. and 7 p.m. of the same day.
In this case it is not necessary to rebook or cancel your appointment.
The vaccination centre will contact you if you have given them a telephone number or e-mail address when you booked your appointment.
This does not affect those appointments already made for the afternoon.

If you have an appointment for a second vaccination in the afternoon and you want to change this, you can cancel the appointment by e-mail to this e-mail address: impfzentrum@stadtdo.de or by telephone under 0231 50 16600.

**Vaccinations for children and youths aged 12 - 15**

As of 04/08/2021
Paediatricians are available each **Wednesday- and Sunday afternoon between 2 p.m. and 7 p.m.** to vaccinate children and youths aged between 12 and 15 with the BioNTech vaccine.
Personnel at the centre will explain the vaccination procedure in detail and advise parents.
It is not necessary to make an appointment.
Parents must approve the vaccination. In case one parent is absent, a written statement signed by the absent parent together with a copy of the Identity Card must be presented to allow the vaccination to take place.
Vaccination Intervals

Fully recovered persons can now be vaccinated after 4 weeks.

Please observe the following vaccination intervals:
First vaccination with mRNA-vaccine Moderna; second vaccination with mRNA-vaccine Moderna: 4 weeks
First vaccination with mRNA-vaccine BioNTech; second vaccination with mRNA-vaccine BioNTech: 3 weeks
First vaccination with vector-vaccine (AstraZeneca); second vaccination with mRNA-vaccine (Moderna, BioNTech): 4 weeks
First vaccination with vector vaccine (AstraZeneca); second vaccination with vector vaccine (AstraZeneca): 8 weeks

For questions all around the vaccination centre, you can reach us by telephone:
Monday – Thursday 8 a.m. – 5 p.m. and Friday 8 a.m. – 1 p.m. under 0231 50-16020 or by e-mail to impfzentrum@stadtdo.de
