

- From overhead sensors monitoring outdoor and on-street parking spaces to intelligent analysis about behavior and state-of-the-art displays
- CLEVER Cities stands for co-designing locally tailored ecological solutions for value added, socially inclusive regeneration in cities
- Nature-based solutions (NBS) are actions inspired by, supported by or copied from nature that aim to help societies address a variety of environmental, social and economic challenges
- Co-creation arose from the practice of collaborative product and service development where developers and stakeholders are working together
