

DOdata**DORTMUND**

- is operating digital communication infrastructure (LoRaWAN), providing modern data services (data value-add based on AI) and bring smart ideas to life.
- is your municipality owned reliable partner for SmartCity data and IoT-solutions. One-stop service provision.
- tailored solutions especially build the foundations for a city worth living in.
- Smart parking, smart waste and smart energy are only some examples of what we have already launched successfully.
