- bee smart city is the leading global Smart City Network and official partner platform of the United Nations' initiative „United for Smart Sustainable Cities“ (U4SSC).
- The fast-growing platform and community connects 13,000+ members from 170 countries, and features 650 + solutions implemented in more than 1,000 cities across the globe.
- We empower smart sustainable cities by facilitating the global exchange of best practice solutions and lessons learned. bee smart city creates market transparency.
- We educate through guidelines and provide advisory services to cities and government bodies as well as to companies to foster efficient (digital) urban transformation.
